A CURE FOR PARALYSIS.

In 1996, Kevin Kitchnefsky was involved in a construction accident that paralyzed him from the chest down. After the crisis stage, Kevin reached out to the Christopher Reeve Paralysis Foundation. With family and friends at his side, he set out to raise funds for research into a cure for paralysis brought on by spinal cord injury.

Kevin held his first Golf Tournament in 1999 and The Kevin Kitchnefsky Foundation for Spinal Cord Research was incorporated in January 2000. For more than 10 years, the Foundation has held an annual Harvest Fest gathering, a family-friendly children's festival that features entertainment, games, prizes, food, and more. 28 years later, our many dedicated volunteers and supporters continue to come together in community-wide fundraising events, bringing hope and help to individuals suffering from spinal cord injuries while helping advance research towards a cure.

To date, we have raised more than \$750,000. 30% of the money we raise is passed on as K-Grants to residents of Northeast PA who have suffered spinal cord injuries or organizations dedicated to serving these individuals. This helps offset the costs of equipment, therapy, caregiver respite, fees and/or medical bills incurred as a result of a spinal cord injury. As we continue to expand our activities, your help is always appreciated!
